

## CAPACITY CHART FOR 300 US gal

| <b>Diameter</b><br>38 in |        | <b>Length</b><br>60 in |        | <b>Height</b><br>variable |        | <b>Adjusted Length**</b><br>62 in |        |
|--------------------------|--------|------------------------|--------|---------------------------|--------|-----------------------------------|--------|
| H (in)                   | US gal | H (in)                 | US gal | H (in)                    | US gal | H (in)                            | US gal |
| 1                        | 2      | 11                     | 72     | 21                        | 171    | 31                                | 364    |
| 2                        | 6      | 12                     | 82     | 22                        | 181    | 32                                | 271    |
| 3                        | 11     | 13                     | 91     | 23                        | 191    | 33                                | 278    |
| 4                        | 17     | 14                     | 101    | 24                        | 201    | 34                                | 285    |
| 5                        | 23     | 15                     | 111    | 25                        | 211    | 35                                | 291    |
| 6                        | 31     | 16                     | 121    | 26                        | 220    | 36                                | 296    |
| 7                        | 38     | 17                     | 131    | 27                        | 229    | 37                                | 300    |
| 8                        | 46     | 18                     | 141    | 28                        | 238    | 38                                | 302    |
| 9                        | 55     | 19                     | 151    | 29                        | 247    | -                                 | -      |
| 10                       | 63     | 20                     | 161    | 30                        | 256    | -                                 | -      |

\* THIS CHART IS NOT INTENDED TO BE USED FOR PURCHASES OR SALES OF PETROLEUM PRODUCTS.

\*\* PRECISION ON GALLONS IS ABOUT +/- 2,5%.

BECAUSE THIS ADJUSTED LENGTH USED FOR CALCULATIONS IS 2,5% HIGHER THAN THE NOMINAL LENGTH TO TAKE IN ACCOUNT THE UL PERMITTED TOLERANCES ON TANK DIMENSIONS AND ON NOMINAL CAPACITY (-0,0% AND +5,0%).
